

ICATS Approved Training Providers

The approved training providers listed below will deal with all registration and certification of applicators. Available modules, course fees and dates can be obtained directly from the approved training providers.

Jack Tighe Ltd

Contact: Sam Panter

Redbourne Mere, Kirton Lindsey, Gainsborough, Lincolnshire, DN21 4NW

Tel (01652) 640003 . Fax (01652) 648442

Website: www.jacktighe.com

Email: sam@jacktighe.com

Jack Tighe Ltd are approved ICATS Trainers registered to train all current modules including the Abrasive blasting and Spray painting specialist modules. Jack Tighe has an approved ICATS Training Facility at their Head Office in Kirton Lindsey and also offer training at a customer's site if required. The practical training assessment would be carried out at our factory locations close to the training centre.

Our in-house Certified Trainers for the ICAT scheme are all currently working in the painting industry and have years of valuable hands on knowledge and experience. We are a contracting company who we consider are the best qualified to deliver the industry approved training.

Jack Tighe offers flexible training for all customer requirements and workloads which would include block 5 day course bookings or the course spread over a number of weeks. All documentation will be submitted to Correx Ltd for applicator registration and certification.

There will be a lunch provided with the course and there are also suitable hotels and B&B's within 10 miles of the Training Facility.

The team at Offshore Painting Services are delighted to have been accredited by ICATS and selected to provide their approved training courses in the North West.

Offshore Painting Services hold a number of ISO standards, including 9001, and now bring an enviable reputation within the wind industry to its new training facility based in the North West, conveniently located at the end of the M57/M58 motorway networks on

Merseyside.

Training is provided by first-class trainers who have practical experience of their subject matter and is offered in our new, bespoke facility; the ICATS syllabus is delivered to the exacting standards expected by ICATS in our state-of-the-art classrooms complimented by hands-on exercises in purpose-built painting and blasting units.

Paintel Ltd

Contact: Kevin Harold

Paintel Office & Training Facility: Ivy Bridge, Devon

Contact via our Website: <http://paintel.co.uk/contact.php>

Paintel Ltd is a family run company that has been undertaking Painting and Maintenance of structures since 1999. Company Director Kevin Harold has worked within the Industrial Coatings and Corrosion Protection Industry for nearly 40 years. The ICATS training we provide is aimed both at individuals seeking to achieve the ICATS qualifications and businesses looking for a package to train and manage the ongoing ICATS training requirements you may have.

We offer the options of:

- Training based at the Paintel premises in Ivybridge, Devon, which is an Approved ICATS Training Centre, easily accessible by plane (Exeter Airport), train or car
- Training based at your business premises if the right conditions apply
- Or (for larger groups) training based in a conference type facility with arrangements for the practical's.
- Light lunches, snacks and drinks are provided and inclusive in the fees

In addition to the delivering the ICATS Theory & Practical training units we make the process clear by registering and applying for the required ICATS cards on behalf of all our trainees and follow the process right through from training to gaining the qualifications. We also advise on the process to take the CITB Health Safety & Environment Test and then how to apply for CSCS cards for applicators.
