

ICATS Approved Training Providers

The approved training providers listed below will deal with all registration and certification of applicators.

The Global Corrosion Solutions Group Ltd

Howe Moss Drive, Dyce, Aberdeen, AB21 0GL

Tel: 0761643887, Email: nicky@thegcsg.com

Jack Tighe Ltd

Contact: Sam Panter

Redbourne Mere, Kirton Lindsey, Gainsborough, Lincolnshire, DN21 4NW

Tel: (01652) 640003, Fax (01652) 648442, Website: www.jacktighe.com, Email: sam@jacktighe.com

Jack Tighe Ltd are approved ICATS Trainers registered to train all current modules including the Abrasive blasting and Spray painting specialist modules. Jack Tighe has an approved ICATS Training Facility at their Head Office in Kirton Lindsey and also offer training at a customer's site if required. The practical training assessment would be carried out at our factory locations close to the training centre.

Our in-house Certified Trainers for the ICAT scheme are all currently working in the painting industry and have years of valuable hands on knowledge and experience. We are a contracting company who we consider are the best qualified to deliver the industry approved training.

Jack Tighe offers flexible training for all customer requirements and workloads which would include block 5 day course bookings or the course spread over a number of weeks. All documentation will be submitted to Correx Ltd for applicator registration and certification.

There will be a lunch provided with the course and there are also suitable hotels and B&B's within 10 miles of the Training Facility.

IMechE Argyll Ruane

Contact: Joanne Goffin

4 Europa View, Sheffield Business Park, Sheffield, S9 1XH

Tel 0114 399 5720

Sammutt House, Fulmar Way, Dalgety Bay, Fife, KY11 9YX

Tel: 01592 874661, Website: www.hyspecservices.co.uk, Email: admin@hyspecservices.co.uk

Hy Spec Services Ltd are primarily an industrial painting contractor with over 30 years in the industry. We are approved to offer ICATS training and do this at our head office in Dalgety Bay (near Dunfermline) in Fife. Our experience, facilities and equipment allow us to provide comprehensive training for the ICA, Blasting and Spraying modules.

Magic Training LTD

Contact: George Vilcan

253-254 Water Road, Wembley, HA0 1HX

Tel: +44 (0) 1206 688043, Email: george@magic-training.co.uk

Magic Training LTD was born out of the need to prepare construction professionals for the modern world of construction engineering and possibilities. We wanted to be part of the next generation of trainers to deliver competent, accredited, and innovative workforce. In a nutshell, Magic Training is a centre of excellence and accreditation of construction industry human resources here in London.

Because of the constant need of guiding our learners we are here to support any candidate in achieving their dreams. Our team gives 100% to aid candidates evaluating their needs and enrolling them for the right program.

Accreditations

Even though we are a young company, our assessors and trainers are chartered members of CIOB and IOSH with over 12 years experience in construction management and health and safety. All our courses are accredited by the relevant authorities, including CIOB, IOSH, EAL, CORREX, CITB, and ProQual. As a consequence of our approach, we are becoming an industry benchmark for construction training.

Team

With such a team, we can deliver the best core curriculum for construction training and the best-in-class instructional model to ensure that learners are thoroughly prepared for the job market. Our current programs include national vocational qualifications from levels 2 to 7, electrical and painting courses. We also have a variety of short courses on site management safety, site supervision safety, and IOSH working safety.

Variety

Everything about us revolves around quality, commitment, and durability. That is why we have various NVQ programmes to prepare our learners for every aspect of construction work from formwork to painting. We have also included industry management and supervisor courses to ensure that our graduates are ready to play their roles as technicians and future leaders in the construction industry.

Industry focus

We ensure that our learners make informed choices about what to study and how to prepare for the job market. Whether they are already in the industry looking to improve their skillset or new, we have the model designed specifically for their needs.

We can be reached out any time during workdays for a quick orientation.

M J Services Ltd

Contact: Darren Rainbow

Unit 4, Shibdon Business Park, Cowen Road, Blaydon, Tyne and Wear, NE21 5TX

Tel: +44 (0) 191 414 5700, Email: info@mjservices-uk.co.uk

MJ Services has been a leader in the design, manufacture and supply of specialist surface preparation and coating equipment since 2000. They offer training in all aspects of spray painting and surface preparation either on site or at their fully equipped workshops in Gateshead.

MJ Services success has been built on solid foundations. Over the years they have accumulated considerable expertise and at their purpose-built factory in Gateshead. We are now accredited to deliver both Spray Painting and Abrasive Blast cleaning ICATS Specialist modules.

Offshore Painting Services Ltd

Contact: Nick Hoult

7 Leckwith Road, Bootle, Liverpool, L30 6UF

Tel: 151 521 5929, Website: www.offshorepaintingservices.co.uk, Email: training@ops-wind.co.uk

The team at Offshore Painting Services are delighted to have been accredited by ICATS and selected to provide their approved training courses in the North West.

Offshore Painting Services hold a number of ISO standards, including 9001, and now bring an enviable reputation within the wind industry to its new training facility based in the North West, conveniently located at the end of the M57/M58 motorway networks on Merseyside.

Training is provided by first-class trainers who have practical experience of their subject matter and is offered in our new, bespoke facility; the ICATS syllabus is delivered to the exacting standards expected by ICATS in our state-of-the-art classrooms complimented by hands-on exercises in purpose-built painting and blasting units.
